[0006] U.S. Application No. 10/001,895, Attorney Docket No. 15358-006500US, filed Reading November 19, 2001.

BACKGROUND OF THE INVENTION

[0007] The present application relates to field of accessing recorded information, and more particularly to techniques for accessing recorded information using a paper interface.

[0008] Recording information during presentations has many gained a lot of popularity in recent years. For example, colleges and universities have started to program classes and lectures, corporations have started to record meetings and conferences, etc. The information during a presentation may be recorded using one or more capture devices. The recorded info may comprise different types or streams of information including audio information, video information, and the like.
